

INTRODUCING CLEAN SWEEP

FIRST ONE OR TWO PLAYER VIDEO GAME WITH TRUE "PINBALL" ACTION
from the makers of HOCKEY, SOCCER & VOLLY

Clean Sweep is a major, money-making breakthrough in coin-operated video games because it can be played by one or two people, can be set to award free games for high scores and allows either 3 or 5 balls for each player. The number of balls and the free game award are both operator-selectable. Players try to erase a field of dots by directing a bouncing ball with a joystick-controlled "saddle" that is moved horizontally across the bottom of the screen. Each time the ball passes over a dot, the dot gets erased and the player gets a point. If he erases all the dots, he scores a "clean sweep" and can win a free game. No other video game matches the fast action and player challenge of "Clean Sweep." Put it in your best locations and sweep in bigger profits.
